Thereafter, on motion of Eric Meyer, seconded by Don Campbell, and on the following vote:

3-3

AYES: Commissioner(s) Eric Meyer, Don Campbell, Jim Harrison, Jim Irving, Kenneth Topping.

NOES: None.

ABSENT: None.

The Commission recommends the Board of Supervisors approve General Plan Ordinance Amendment LR2014-00007 as shown in Exhibits LRP2014-00007:B, C and D based on the findings listed in Exhibit A.

5. Hearing to consider a request by the COUNTY OF SAN LUIS OBISPO to amend portions of the following documents in order to encourage the development of certain renewable energy projects in the most suitable locations in unincorporated inland areas of the county through a Renewable Energy Streamlining Program (RESP): 1) Framework for Planning (Inland), Part I of the Land Use and Circulations Elements (LUCE) of the County General Plan; 2) the Carrizo, North County, San Luis Obispo, and South County Area Plans, Part II of the LUCE; 3) the Official Maps, Part IV of the LUCE; 4) the Conservation and Open Space Element of the County General Plan; 5) the Land Use Ordinance, Title 22 of the County Code; and 6) the Rules of Procedure to Implement the California Land Conservation Act of 1965. The proposed amendments would: 1) establish a Renewable Energy combining designation where the land use permitting of certain renewable energy projects is streamlined, for example, through the use of Site Plan Review instead of Minor Use Permits; 2) establish new performance standards that renewable energy projects must meet; and 3) revise the Rules of Procedure to Implement the Land Conservation Act of 1965 to allow certain renewable energy projects on contracted land. The Environmental Coordinator found that there is evidence that the project may have a significant effect on the environment, and therefore a Final Environmental Impact Report (FEIR) was prepared (pursuant to Public Resources Code Section 21000 et seq., and CA Code of Regulations Section 15000 et seq.) for this project. The FEIR addresses potential impacts on: Aesthetics, Agricultural Resources, Air Quality, Biological Resources, Cultural Resources, Geology and Soils, Greenhouse Gases and Climate Change, Hazards and Hazardous Materials, Land Use and Planning, Noise and Water Resources. Mitigation measures are proposed to address these impacts and are included as conditions of approval. Overriding considerations were determined necessary based on significant and unavoidable impacts associated with Aesthetics, Agricultural Resources and Land Use and Planning. County File Number: LRP2014-00015 Assessor Parcel Numbers: Countywide Supervisorial Districts: All Date Authorized for Processing: July 9, 2013 James Caruso, Project Manager Recommendation: Approve (10:03 AM)

James Caruso, Project Manager: introduces team and overviews the order of hearing topics.

Jennifer Venenna: discusses challenges to the biological resources.

Tammy Seale: discusses code revisions in terms of site permits required regarding the absence of species.

Commissioners: ask questions about the EIR process.

Ken Topping: opens Public Comment.

Eric Greening, David Chipping, Marti Rutherford, Joy Fitzhugh, and Eric Veium: speak.
